Away from the hustle and bustle of the city, Zen world is created to relax and rejuvenate its inhabitants.

Every residence, with its thoughtfully curated amenities and design aesthetics, promises to be the sanctuary of calm. The space offers a world of serenity with its lush themed gardens, club house and spill over spaces.

Each apartment is designed in a way to get good light and ventilation and no over looking into the other apartments.

To convey the concept in design elements, ducts are covered with Zen inspired jalli designs and the roofs have been designed as Japanese roofs. The architecture is designed with outside to inside concept, where majority of the apartment in the complex are over looking the lush green landscaped areas. Not only this, the interior spaces and the clubhouse emanates tranquility and creates a serene ecosystem.
