Creative Excellence in Interior Design

Gaurav Sanghavi, Harsh Pote, Pragna Sanghavi, Bhakti Pote (Pentaspaces)

Pentaspaces believes that architectural synergy is a response to space, nature and light. They provide ingenious designs and believe in contextual to creative, and authentic to sustainable designs. What started as a blueprint to redefine the realm of architecture in 2007, is now a thriving portfolio of over a 20 million sq. ft. at varying stages, across the Indian Real Estate market, spanning luxury and affordable housing, hospitality, retail, industrial, and commercial projects. This dynamic growth comes from the vision to provide holistic solutions, and an introspective approach which is further reflected in their in-house interior designing wing and research arm. Today, Pentaspaces has earned a reputation for innovative, distinctive concepts that not only for every strata, but every mindset.

Pentaspaces Consultants Pvt. Ltd. Receiving the award from senior architect Nitin Killewala
